## Leader Aviation Services Partners with Able Engineering

Leader Aviation Services Pty. Ltd. and Able Engineering & Component Services, Inc. announced a new partnership this week. The agreement will allow Leader to distribute Able's component repairs, overhauls, PMA's and exchanges for rotor wing and fixed wing aircraft in Australia, New Zealand and Papua New Guinea.

"We are very excited to be a partnered with a company such as Able Engineering," said Leader's Derek Swadling. "We were pleased and flattered that Able has chosen us to help take them forward in today's highly competitive market."

Able's Vice President John Jackson added, "We look forward to the relationship with Leader. We have over 10 years of history with the Leader staff and we are confident their knowledge & stature in the industry will provide additional value for our customers in the region."

Able Engineering is an industry-leading provider of quality component repair, overhaul and approved replacement parts solutions. Able has developed over 7,000 FAA-approved proprietary repairs and offers money-saving PMA parts (Able Aerospace) for fixed-wing and rotor-wing aircraft operators. Able boasts a continually-growing list of designations and certifications, which includes approval from the FAA, ANAC, EASA, Thai DCA, China's CAAC, ISO9110:2008 and Boeing AS-9100 quality standards.

For additional information and a complete list of Able's FAA-approved parts, please visit <http://www.ableengineering.com> or contact a customer service representative at Able direct at 602-304-1227.
