

## **Leader Aviation Acquired by Director**

Leader Aviation Services is pleased to announce that they have been fully acquired by Director Derek Swadling

Leader Aviation Services, a leading specialist in helicopter component overhaul and based in Adelaide South Australia, supporting the industry both within Australia and regionally throughout Southeast Asia and the Pacific.

Derek Swadling, who has now assumed the role of Managing Director said, "I'm very excited by this acquisition and look forward to working with our dedicated team to take the business to the next level that could not have been achieved with the previous ownership structure". This gives us the ability to expand the business into new markets and allows us to provide new additional services to the aviation industry as a whole."

Leader Aviation Services was established in 2010, currently employs 9 specialist personnel, is a certified Bell Customer Service Facility and certified under CASA CAR 30 and CASA Part 145 regulations.
